

**Plastic case with insert foam****ZDJĘCIA**

External dimension: 580x380x135 mm

**Weight:** 3,7 kg (without tools)

The weight of the case depends on the profile of the foam inserts. Due to continuous product development, product appearance may vary slightly from the images shown.

**CHARACTERISTICS**

Main part of the case made of black polypropylene. Transparent hinged lid of the case made of polycarbonate. The case has two fasteners for the tilting lid in black and two side fasteners in red to connect several suitcases into a set. It also has a handle that allows the case to be carried in an upright position. Inside the case are foam inserts made of cross-linked polyethylene, molded to the shape of the equipment or tools.

Possibility of any configuration of cases, depending on the type of equipment or tools placed in it.

**APPLICATION**

The cases are designed for the proper transportation, storage and segregation of tools and equipment for live work.

**STORAGE AND MAINTENANCE**

Keep cases in a clean condition. Use warm water (up to 40 °C) with mild detergent to clean the exterior surface. After cleaning, dry thoroughly. Clean interior surfaces and foam pads with a brush or vacuum. Store cases in dry rooms, away from heat sources, in a non-aggressive atmosphere. Protect from sunlight.

## Plastic case with insert foam

### EXAMINATION

A visual inspection of the cases must be made before each job begins. Carry out a periodic inspection, also by visual inspection, once a year.

Visual inspection includes checking:

- external and internal surfaces of the case (the surfaces should be clean, without signs of damage or other visible defects),
- foam inserts for stable positioning of instruments,
- the correct functioning of the snap fasteners.

Cases that are damaged, heavily worn (mechanical surface damage, cracks) or dirty cannot be used for tool storage. In case of moisture (especially the inner surface), the case should be thoroughly dried.

### FREQUENCY TESTS

For check and periodic inspection to be carried out in according to table.

	CHECK	PERIODIC INSPECITON
Who	Manager of team	Supervision
When	Before each use	Once a year*
How	Visually (visual inspection)	Visually (visual inspection)
