

H014 Battery 18V DC, 160 Wh, 2,5 Ah for Electric Chiansaw**PHOTOS**

Voltage: 18 V DC
Battery capacity: 2.5 Ah (45 Wh)
Dimensions: (135 x 80 x 90) mm
Weight: 460 g

Length and weight tolerances are $\pm 2\%$. Due to continuous product development, product appearance may differ slightly from that shown in the photos.

CHARACTERISTICS

The Li-Ion battery has a voltage of 18 V/DC and a capacity of 2.5 Ah. It has a reinforced housing structure that protects it from impacts. It is equipped with a four-LED battery charge level indicator, activated by a button.

APPLICATION

The battery is the power supply element of the A224.0201 chainsaw.

STORAGE AND MAINTENANCE

The saw and its accessories (charger, batteries, remote control, etc.) should be stored in a carrying case to protect them from mechanical damage. Store the set in a dry place, away from heat sources, in a chemically non-aggressive atmosphere. Protect from sunlight.

WARNING!

During storage or transport, always remove the battery from the compartment located in the chainsaw's remote control body!

H014 Battery 18V DC, 160 Wh, 2,5 Ah for Electric Chiansaw**EXAMINATION**

Before each use, inspect the battery and check its charge level. The inspection includes checking:

- for any visible damage to the battery casing,
- for the battery charge level.

A damaged battery (mechanical damage to the casing) cannot be used to power the cordless saw.

NOTE!

If the charge level is low, connect the battery to the A443.01L1 charger.

FREQUENCY TESTS

For check and periodic inspection to be carried out in according to table.

	CHECK	PERIODIC INSPECITON
Who	Manager of team	Supervision
When	Before each use	Once a year
How	Visually (visual inspection)	Visually (visual inspection)

**Unless instructions say otherwise*
